

February 5, 2010

Dear Valued 3M Customer,

3M Company, Automotive Aftermarket Division, certifies that the following 3M spray guns meet the definition for classification as High Volume Low Pressure (“HVLP”) spray equipment when operated in accordance with 3M recommended directions for use. 3M AAD defines “HVLP” based on the guidelines outlined in the California Air Resource Board (“CARB”) Suggested Control Measure for Automotive Coatings (Oct. 20, 2005):

HVLP Gravity Feed Hand Held Spray Guns:

Series 05-100
Series 05-300 Detail Gun
Series 07
Series 07HS
Series 10G
Series 10GP Pressurized Gravity Feed
Accuspray Spray System, Model HG09 (PN16570)

LVLP Pressure Feed Hand Held Spray Gun

Series 19C

HVLP Pressure Feed Hand Held Spray Gun:

Series 10
Series 11
Series 12s
Series 12sz
Series 19

HVLP Automatic Spray Gun:

Series 52
Series 55
Series 55ZZ
Series 56
Series 56ZZ
Series 57
Series 57UL
Series 57ZZ

Note –Test Air Caps are available for the purposes of demonstrating that 3M spray equipment meets the HVLP definition.

Please contact Alonzo Knowles, 3M AAD Regulatory Compliance Associate, at 651-736-1911 if there are any additional questions.

Sincerely,

Hugh P. Stoll
Regulatory & Product Engineering Manager
